STATUS: Completed

PRICES: €315,000–€495,000

FULL DESCRIPTION

This development, in Riviera del Sol, near Marbella and La Cala de Mijas, is located next to crystalline water beaches ideal for windsurfing, sailing and diving. Its location makes it offer one of the most spectacular views on the Costa del Sol. Our homes, located in a residential area of landscaped urbanizations and with swimming pools, are perfectly communicated with the urban centers that are around them and can be easily accessible by highway and national road. In the area there are large shopping centers and large green areas, making it ideal both as a regular residential area or as a second home. It is also close to the Hotel Oasis and hole two of the La Siesta golf course.

It is a set of 37 spacious multi-storey houses, with a living-dining room, kitchen, three and four bedrooms with built-in wardrobes, separate bathroom, toilet, terraces, interior patio or garden and, in addition, a private garage. Some of the houses are also equipped with a private pool.
