FULL DESCRIPTION

This new residential complex is located in Estepona where you will find much more than just a house: you will find a beautiful garden where you can extend your home. As if that weren't enough, you will be able to enjoy a residential complex with common uses typical of a resort just a few minutes from the beach, the Coastal Path, numerous golf courses, Estepona Port and La Duquesa, restaurants, supermarkets, Estepona High Resolution Hospital and connection to the A-7 and AP-7 motorways, which connect in less than an hour to Malaga or Gibraltar. The complex consists of 106 multi-family homes with 2 and 3 bedrooms with underground parking space and storage room, designed under the criteria of sustainability and open-space concept, offering optimized and contemporary homes, adapted for all customer profiles and designed for the new way of life where you can combine health, pleasure and work in your own home. Within the spacious communal areas we find a large number of plant species surrounding the swimming pool, as well as a gymnasium, outdoor meditation area, spa, communal room with co-working, beach volleyball court, children's area and putting green. All these common uses together with the prominence of the gardens with palm trees, citrus and aromatic plants, as well as paths to cross these green areas, make this development the perfect place to enjoy the climate, nature and tranquillity.
